

PAVITH PRIYADHARSHAN S

.NET Full-Stack Developer | ASP.NET Core | Angular | C# | SQL Server

Coimbatore, Tamil Nadu, India | +91 6380153390 | pavithpriyadarshan222@gmail.com

LinkedIn: linkedin.com/in/pavithpriyadharsan | Portfolio: pavith-portfolio-website.netlify.app

PROFESSIONAL SUMMARY

Delivered enterprise BFSI web applications as a Full-Stack Engineer for 2+ years, leveraging ASP.NET Core, C#, Web API, Angular (v14+), JavaScript, RxJS, EF Core, and SQL Server to raise application maintainability by 20%, cut database query latency by 10%, and slash server response latency by 20%. Skilled in Clean Architecture, SOLID principles, RESTful APIs, JWT/RBAC security, state management, and Azure DevOps CI/CD within Agile teams.

TECHNICAL SKILLS

Backend Development: C#, ASP.NET Core, .NET Core, Web API, Entity Framework Core, LINQ, RESTful APIs, Dependency Injection, Clean Architecture, SOLID Principles, Design Patterns, Microservices, Python

Frontend Development: Angular (v14+), TypeScript, JavaScript (ES6+), RxJS, State Management, Reusable UI Components, Lazy-Loaded Modules, HTTP Interceptors, HTML5, CSS3, Bootstrap, Responsive Design, React

Database & Query Tuning: Microsoft SQL Server, T-SQL, Stored Procedures, Indexed Views, Index Tuning, EF Core & LINQ Query Optimization, Database Normalization, Relational Schema Design

Cloud, AI & DevOps: Microsoft Azure (App Services, Azure SQL), Azure DevOps, CI/CD Pipelines, Microsoft Copilot (Agents & Use Cases), Generative AI Integration, Git, GitHub, Docker, xUnit, NUnit, Agile/Scrum

PROFESSIONAL EXPERIENCE

Software Engineer | LTM (formerly LTIMindtree) — Chennai / Coimbatore, India

August 2024 – Present

- Designed and built ASP.NET Core Web API and Angular modules with Clean Architecture, SOLID principles, and Dependency Injection for financial transaction features, boosting maintainability by 20%.
- Optimized SQL Server stored procedures, execution plans, and non-clustered indexes, cutting average relational query execution time by 15%.
- Led performance tuning of the Fullview analytics platform using EF Core LINQ query optimization and lookup data caching, slashing server response latency by 20%.
- Built scalable Angular interfaces with RxJS reactive streams, state management, HTTP interceptors, reusable UI components, and lazy loading to streamline complex financial analytics workflows.
- Maintained 99.2% SLA compliance for production defect resolution by diagnosing cross-layer root causes and deploying high-impact fixes that eliminated recurring failures.
- Automated deployment workflows with Azure DevOps CI/CD pipelines and Git branching strategies, earning "Rising Star" and "Super Crew" awards for engineering and delivery excellence.

Junior Application Developer (Contract / Temporary) | uSiS Technologies Pvt. Ltd. — Coimbatore, India

May 2024 – August 2024

- Delivered responsive, cross-browser web interfaces based on Figma specifications using JavaScript (ES6+), HTML5, and CSS3, raising workflow efficiency and user retention by 20%.
- Refactored legacy client-side scripts and streamlined asynchronous REST API data binding, decreasing mobile screen-load latency by 20%.

Web Development & Full-Stack Internships | Zidio Development & Hawk Monk

September 2023 – April 2024

- Zidio Development (Intern, Mar 2024 – Apr 2024):** Engineered a real-time messaging application using WebSockets, JavaScript, and secure RESTful endpoints, sustaining sub-150ms message latency and mitigating XSS/injection risks with robust input sanitization.
- Hawk Monk (Intern, Sep 2023 – Feb 2024):** Integrated third-party RESTful APIs with structured JSON payload processing for analytics dashboards; created modular, accessible UI components for an enterprise SaaS platform.

KEY FEATURED PROJECT

Fullview – Enterprise BFSI Analytics Application | ASP.NET Core, Angular, SQL Server, EF Core, Azure

- Built high-throughput backend services and interactive Angular dashboards processing 10,000+ customer records and financial portfolios with sub-second response times.
- Enforced strict financial governance and security compliance using Role-Based Access Control (RBAC) and JWT authentication across API endpoints.

EDUCATION & CREDENTIALS

Bachelor of Technology (B.Tech): Kumaraguru College of Technology, Coimbatore, India (August 2019 – April 2023) | CGPA: 8.3 / 10.0

Certifications: Microsoft Certified: Azure Fundamentals (AZ-900) | Complete Angular Developer (v14–v18, RxJS & State Mgmt) | Generative AI Mastermind | Microsoft Copilot: Agents & Use Cases | Introduction to Python Programming | Web Development Bootcamp

Honors & Awards: Rising Star Award & Super Crew Award (LTM — honored for rapid production defect remediation and engineering delivery)
